General Information

- : As used herein the term "AutoNation" shall refer to AutoNation Auto Auction.
- : When determining the number of days elapsed as set forth herein, "Sale Day" with respect to any particular vehicle or for purposes of computing timelines, shall be defined as the date on which a vehicle passes through the auction and is purchased by a Buyer. Sale Day is defined as day (1) one for all arbitration purposes. Business Day example: a vehicle is purchased on Thursday, 2 business days from the Sale Day would be the following Monday if the auction is closed on Saturday and Sunday. Therefore, any action required to be completed within "2 business days of the Sale Day" must be completed by close of business on Monday in this example. In case of a Monday holiday in which the auction is closed, the second business day would be Tuesday following the Sale Day. Calendar Day example: a vehicle is purchased on Thursday, 2 calendar days from purchase would be the following Saturday.
- : Speed limit on the lot is 5 mph.
- : No person under 18 years of age allowed.
- : If a Dealer is caught bringing in retail customers/unauthorized personnel onto AutoNation Auto Auction property, your buying/selling privileges will be suspended for that week or that particular day. If the day is a sale day, you will be liable for all purchases/sales prior to suspension. If you are caught a second time then you will be barred from AutoNation Auto Auction.
- : The sales made at AutoNation Auto Auction are intended to promote fair and ethical treatment to both the Buyer and the Seller.
- : If AutoNation determines that the transaction is not fair and ethical to either party, the Seller and the Buyer agree that AutoNation may cancel the sale, at its sole discretion. Federal, State, and Local laws supersede these policies where applicable. This provision also applies to any clerical or administrative error made by AutoNation. Any arbitration conducted at AutoNation is subject to the Terms and Conditions.
- : Sold & "no sale" consignment vehicles must be removed in a timely manner. If not removed, vehicle(s) will be subject to tow at owner's expense. Removal deadlines vary per location:
- : If you purchase a car and remove the key and leave the car in the auction lanes, there will be a storage fee charged per day if the car is not removed within two (2) calendar days after Sale Day. If possible, we will tow the unit(s) to the front parking lot.

AutoNation

AUTO AUCTION

- : Any unit sold under Green/Yellow Light can be arbitrated regardless of mileage. Vehicles with the “AutoCheck Announces Structural Damage” declaration will be sold “As-Is”. Any unit that is consigned or sold with an unannounced AutoCheck Structural Damage is subject to unwind within seven (7) calendar days of Sale Day.
- : If necessary, vehicles being arbitrated for structural damage may be subject to Third Party “Laser Inspection” conducted by a facility designated by AutoNation Auto Auction. Depending on the outcome, the Seller/Buyer will be responsible for the inspection fee and all associated costs.

Structural Policy

- : Per NAAA, the following structural policy will be effective immediately. This policy is quite complicated & all NAAA member auctions have adopted this policy.
 1. AutoNation will adopt the “Is It Frame” rule. The “Is It Frame” rule is subjective & is based upon visual examination, size, location, component, & degree of damage.
 2. Quarter panels – a considerably large percentage of vehicles in the past that have had quarter panels replaced or had C pillar damage, will now, more than likely, not be considered structurally damaged as determined by the website isitframe.com. This website will also define whether the quarter panel or C pillar damage is considered structural.
- : NAAA rules will be applied & enforced & no other opinion outside of the NAAA policy will be taken into consideration.
- : All prior vehicle structural damage/frame history from electronic databases (i.e. AutoCheck) will remain. We will not override or change the information & will continue to announce prior history.
- : DUE TO THESE NAAA STRUCTURAL POLICY CHANGES, IT IS HIGHLY RECOMMENDED THAT YOU BECOME FAMILIAR WITH THIS POLICY & RELAY THIS INFORMATION TO YOUR BUSINESS ASSOCIATES (i.e., TECHNICIANS, MECHANICS, ETC.) AS MANY OF THEM WILL NOT BE FAMILIAR WITH THE NEW CHANGES.
- : Rust - only structural components can be arbitrated, but must exceed 25% deterioration on a structural component. This policy falls into the structural damage policy.

Mechanical/Transmission/Drivetrain

- : Any unit in arbitration for mechanical issues, if need, will be sent to an authorized Dealer of auction’s choice for inspection. Dependent on outcome of inspection, the Buyer/Seller will be responsible for all fees associated including transportation.
- : Missing catalytic converters can only be arbitrated where state requires smog inspection. Seller is responsible for disclosure. Arbitration is only valid on Sale Day & unit must not have left the auction. Buyer’s place of business will determine arbitration.
- : Motor/transmission arbitration will be limited to “internally lubricated” parts only.
- : The following will not be arbitrated unless the items require immediate replacement:
 1. Lifters
 2. Insignificant transmission and drivetrain shift shock, noise, or backlash.
- : Manual Transmissions: Vehicles with standard transmissions cannot be arbitrated for manual clutches and components unless the defect will not allow a test drive.
- : Wearable Items: AutoNation will not arbitrate vehicles for wearable items. For purposes of this policy, wearable items are defined as parts of the vehicle that the manufacturer recognizes the need for replacement/adjustment during the expected life of the vehicle. Items are normally identified in the Owner’s Manual for routine check and replacement and would include, but not limited to: tires, wipers, brake pads, shoes, rotors, belts, hoses, lubricants/fluids, timing belts, bulbs, filters, shocks and struts.
- : Front or rear independent differential cannot be arbitrated if operable.
- : Vehicles equipped with 4 Wheel Drive will not be arbitrated for issues if 4x4 system is operable.

- : Buyer has seven (7) calendar days from Sale Day to arbitrate and must provide substantial documentation proving the engine has been replaced.

AUCTION RULES & ARBITRATION POLICIES

AGREEMENT TO AND COMPLIANCE WITH THESE RULES AND POLICIES IS A CONDITION OF PARTICIPATION IN THE AUTONATION AUTO AUCTION. LACK OF KNOWLEDGE OF RULES/POLICIES WILL NOT RELEASE DEALERS OF THEIR OBLIGATION TO ABIDE BY THESE RULES

Gray Market and Canadian Vehicles

- : Eligible Vehicles - only vehicles made in North America for Canadian use and properly converted to U.S. specifications can be sold and must be announced as such.
- : Seller Responsibilities: Seller must inform AutoNation Auto Auction that a vehicle has a Canadian history at time of registration and must disclose that to the Buyer in writing as an announced condition on the block ticket.
- : Proper Conversion
 1. If a vehicle was manufactured in Canada for the Canadian Market, the Manufacturer is required to obtain and affix a U.S. Safety Standard Certification label to the vehicle.
 2. All other vehicles imported from Canada must be imported through a Registered Importer. Registered Importers are required to post a bond with the U.S. Department of Transportation. All vehicles imported through a Registered Importer must have:
 - U.S. Safety Standard Certification Label that identifies the Registered Importer
 - Valid U.S. title
 3. All Canadian vehicles, whether imported by a Manufacturer or a Registered Importer, must show miles per hour on the speedometer and miles traveled on the odometer. Title 49, United States Code, Chapter 327, Section 32704, allows replacement odometer without a door frame sticker if the conversion from kilometers to miles can be done without changing the distance traveled by the vehicle; therefore, replacement of an odometer under these circumstances does not have to be announced by the Seller.
- : Any other "Gray Market" vehicles will not be offered for sale unless accompanied by all legal documentation.

Export vehicles and USPPI reporting

- : Any vehicle that is sold to a Buyer which is ultimately exported by the Buyer requires a U.S. Principal Party in Interest ("USPPI") to be reported. The USPPI is the person or legal entity in the United States that receives the primary benefit, monetary or otherwise, from an export transaction. The auction is merely facilitating the sale transaction between Seller and Buyer and is not the USPPI.
- : If you are the Seller you may be deemed to be the USPPI. The party that is the USPPI is reported to the US Census Bureau at the time of export.
- : As a Seller you hereby understand and agree that your name and address as well as the Tax ID number on file with the Auction may be provided to the Buyer in connection with, and to facilitate, an export transaction and you as the Seller may be reported as the USPPI. As the USPPI you may have additional responsibilities and agree to provide reasonable and required assistance and information to the export Buyer in connection with the export transaction.
