DealShield Policy

Effective February 1, 2021

We are proud to have partnered with DealShield to assist our dealers with a wholesale assurance. How the program works at Dealers Auto Auction for the Southwest:

- 1) If you purchase a vehicle at DAASW and you return the unit with DealShield, the vehicle must be paid for within our payment guidelines to avoid late fees. The buyer will be responsible for the fees incurred
- 2) If you exit the car before the DealShield fee is applied to the car, the charge will go on the buyer's AR and the buyer is responsible for that fee
- 3) When the car is returned the buyer must notify check in that the vehicle is a DealShield return and that it needs to go back to our arbitration department
- 4) Vehicle will be checked in under Meridian Remarketing to await resale
- 5) If you return a vehicle at another auction facility, please make sure to notify our front office staff so they are aware
