

## Northeast Pennsylvania Auto Auction – IF BID POLICY

The “IF” bid policy is a one (1) hour binding contract for the buyer only. The Seller has one hour to determine if they are interested in selling the vehicle. Within that one hour, if the seller determines that the vehicle is sold, it is a sold unit.

The “IF” board is the primary source for communication of the sale, the time of sale is noted on the “IF” board. We also try to phone the dealers when at all possible to communicate the sale.

If no one is available for confirmation, the board will determine the sale and the time of the posting as a final deal. It is your responsibility to check the board for sold and unsold vehicles.

If an hour has passed and you still have not received an answer, then please inquire within the “IF” office for confirmation or to no sale the unit, again this is the buyer’s responsibility.
